About AMA Pro Racing

AMA Pro Racing is the leading national sanctioning body for professional motorcycle sport in the world.

Part of the 280,000-member plus American Motorcyclist Association (AMA), AMA Pro Racing is directed by an independent management staff supported by the resources of the entire organization. While the AMA focuses on government relations, pursuing, protecting and promoting the interests of motorcycle enthusiasts, membership growth and other issues, AMA Pro Racing concentrates exclusively on the business of professional motorcycle racing.

Rights to the most successful national championship series are managed by AMA Pro Racing. Those series are: AMA Supercross Series, AMA Superbike Championship, AMA Motocross Championship, AMA Flat Track Championship and AMA Supermoto Championship.

For these series, AMA Pro Racing sanctions and manages the operations of nearly 75 professional racing events annually. As the sanctioning body, AMA Pro Racing makes and enforces the sporting and technical rules for competition, creates the class structure for races, and determines rider eligibility.

AMA Pro Racing also manages the commercial development of its series, securing sponsorships, negotiating television packages, exploring new markets for racing and planning for the long-term success of the sport by attracting more fans and sponsors. AMA Pro Racing manages the rights and distribution for motorcycle racing television coverage for AMA Superbike, AMA Motocross, AMA Flat Track and AMA Supermoto. In 2007 AMA Pro Racing events will be televised to over 100 million households via leading cable and satellite networks both in the U.S. and in key international markets worldwide.

AMA Pro Racing's vision is for it to continue to be the premier provider of motorcycle racing in the United States. The organization's goal is to provide a fair and stable environment for competitors while managing the commercial development of the sport in a manner that continuously improves the economic growth opportunity for all participants.

AMA Pro Racing headquarters are located in the Columbus, Ohio suburb of Pickerington. Additionally, AMA Pro Racing maintains an office in Southern California to respond to the needs of the motorcycle industry and racing community.

For more information about AMA Pro Racing, visit www.amaproracing.com.

About the American Motorcyclist Association

The American Motorcyclist Association (AMA) is the most respected motorcyclist membership organization in the country and has been working on behalf of motorcyclists since 1924. The organization has an unparalleled history of pursuing, protecting and promoting the interests of the world's largest and most dedicated group of motorcycle enthusiasts. With a focus on Rights, Riding, and Racing, the AMA works to protect your interests as a motorcyclist, enhance your experience as a rider, and produce the most exciting racing events in the country.

Rights: Protecting your interest as a motorcyclist

No other organization does more to protect your right to ride, and represent motorcyclists' interest than the AMA. The work of the AMA Government Relations Department extends beyond AMA members to all motorcyclists. The AMA is your direct link to legislative issues.

Riding: Benefits that make your riding experience better

AMA members have the most comprehensive package of motorcycling benefits of any motorcyclist organization. Member benefits include discounts on parts, gear, insurance, event tickets, roadside assistance, lodging, and more. Member services include access to rider training, more than 900 riding events each year, and extensive online and print resources for information and communication.

Racing: Producing the most exciting racing events in the country

The AMA is the world's largest motor sports sanctioning body. Its AMA Pro Racing division oversees more than 80 professional championship racing events all over the United States, on and off-road. AMA Sports coordinates thousands of amateur races with dozens of competition classes for everyone from kids to seniors.

Simply said... AMA is where riders belong.

AMA Superbike Championship History

The AMA Superbike Championship traces its roots back to 1934, when the AMA first organized motorcycle road racing in the United States. Over the years, the AMA has organized many different road race classes to keep pace with the continuously evolving technology of motorcycles.

The AMA Superbike Championship was created in 1976 to provide an affordable, level playing field for professional race teams, and as a platform for motorcycle manufacturers to showcase their production sport-performance models. The success of the AMA Superbike formula led to international adoption by the Fédération Internationale de Motocyclisme (FIM), and subsequent implementation in virtually every developed country in the world.

A major change occurred in 1986, when the AMA's professional road racing program was separated from the overall Grand National Championship program. Prior to 1986, riders accumulated points in a variety of race formats including road racing, dirt oval, short track and tourist trophy events. While separate road racing championships were awarded, points collected from the various formats could be combined and applied toward a single elite goal: the coveted AMA Grand National Championship title. Since 1986, the AMA Superbike Championship, road race support classes and Grand National Championship have existed as independent championship series.

Today, the AMA Superbike Championship stands as the world's premier national Superbike series, and tours with the AMA Supersport Championship, AMA Superstock, and AMA Formula Xtreme classes. The AMA Superbike Championship and support classes are defined by some of the closest and most heated competition in motorsports. New developments in rider training and motorcycle technologies continuously redefine the limits of personal performance and push the laws of physics to the very edge. The world's top motorcycle manufacturers develop and showcase their leading-edge technology at AMA Superbike races. The adage, "Race on Sunday, sell on Monday," still holds true. These elite championship teams attract an international field of top-caliber racers from every corner of the globe.

Race Related Terminology

AMA American Motorcyclist Association

CC Cubic centimeters in reference to engine displacement.

Claiming Procedures for competitors to purchase motorcycles or parts that another competitor has used in final event competition.

Displacement The space covered or volume swept out by the engine piston at each stroke.

Disqualification Unless otherwise specified, the forfeiture of all points, awards and prizes earned during a particular race.

Flagger Workers stationed at various points around the track to advise riders of track conditions by using different color flags. Also known as “corner workers.”

Get Off A crash

Heat Race A qualifying race determining which riders advance to the main event.

High-side A crash where the rider goes over the top of the bike, as opposed to laying it down, or a “low-side.”

Hole Shot Taking the lead into the first turn of a race.

Homologation The process of acquiring eligibility for a motorcycle to be entered in competition. Homologation rules are formulated to create parity among race bikes, and to maintain a level playing field for competitors.

LCQ Last Chance Qualifying race: where a limited number of top finishers advance to the main event.

Line The fastest way around the track, or through a particular part of the track. Can vary with changing course conditions.

OEM Original Equipment Manufacturer.

Pit /Paddock Area primarily designated for the preparation and maintenance of race equipment. May also include parking for transporters and other support vehicles.

Pit crew Mechanics and/or team assistants.

Privateer A racer competing without benefit of a factory contract or major sponsor support.

Program The predetermined outline of events that make up a race.

Qualify To advance to the final race event by time trial or finish position in a heat race.

Seize When an engine fails due to excessive heat buildup.

Stoppie Riding on the front wheel only, usually under hard braking.

Thumper Descriptive term for a four-stroke motorcycle engine in regard to the deep sound of the exhaust.

Wheelie Riding on the rear wheel only, usually under hard acceleration.

Wrench Slang for mechanic.

Works Refers to parts being tested in competition by a manufacturer.

Career Highlights

2006 Chandler raced a limited AMA Superbike season, earning a top-15 finish at California Speedway... Raced with Sterling Mortgage Kawasaki team.

2004 Chandler earned AMA Formula Xtreme series podium finishes at Pikes Peak Intl Raceway, Road Atlanta and Virginia Intl Raceway... Raced with HMC Ducati team.

2003 Chandler raced a limited season in AMA Supersport, his best result a sixth-place at California Speedway... He entered the AMA Formula Xtreme series, best result was 10th-place at Infineon Raceway... Raced with No Limits Honda team.

2002 Chandler started the Superbike season without a ride, but was picked up by the HMC Ducati team after the Daytona season-opener... A qualifying crash at Road Atlanta forced Chandler to withdraw from that doubleheader race weekend... He earned podium finishes at Brainerd Intl Raceway, Laguna Seca and Virginia Intl Raceway... Raced with HMC Ducati team.

2001 Chandler climbed the AMA U.S. Superbike podium at Pikes Peak Intl Raceway with a third-place finish, and took four additional top-five finishes... Raced with factory Kawasaki team.

2000 Chandler took third-place at the Daytona season opener. Though he had his first winless season since 1996, Chandler's consistent top-10 finishes put him in fifth-place in the season rankings. He took second-place at the Daytona round of the Pro Honda

Oils 600 Supersport series... Rode with factory Kawasaki team.

1999 Veteran Superbike pilot Chandler took victories at New Hampshire Int'l Speedway, Mid-Ohio and Pikes Peak, and placed on the podium at Sears Point and Laguna Seca... Raced for Muzzy Kawasaki.

1998 In the hunt for his record fourth MBNA Superbike title, Chandler just missed, finishing the season as the runner-up for the MBNA Superbike championship... He had six wins and an additional podium finish in Pro Honda Oils 600 SuperSport, and finished as runner-up for that series championship... Rode with Muzzy Kawasaki.

1997 Consistent podium finishes and a win at Laguna Seca earned Chandler his third AMA MBNA Superbike title... Rode with the Muzzy Kawasaki Team... Nominated for the AMA/Speedvision Athlete of the Year Award.

1996 Returned to the Muzzy Kawasaki Superbike team and won his second AMA Superbike Championship... Finished on the podium seven of 10 Superbike events... Superbike victory at Laguna Seca was his first AMA National victory since 1990... Rode what many considered the best race of his career in victory at the Superbike finale in Las Vegas... Raced a limited 750cc SuperSport schedule, Muzzy Kawasaki withdrew from the series halfway through the year... Was a nominee for the AMA/Speedvision Pro Athlete of the Year.

1995 Two top-10 Superbike finishes on the Harley-Davidson VR1000, a ninth at Loudon and a seventh at St. Louis... Rode for Harley-Davidson... Broke his collarbone in the very first Superbike race (The Daytona 200), and rode injured the rest of the season.

1991-94 Rode in the 500cc Grand Prix World Championships.

1990 Won the AMA Superbike title riding a Muzzy Kawasaki... Won four Superbike races and finished on the rostrum in every race... Won four 750 SuperSport races, but lost the championship to teammate Scott Russell... Named as Nominee for the AMA Pro Athlete of the Year Award.

1989 Suffered through a terrible year in Superbike, when the Kawasaki developed mechanical problems at nearly every race... Won the two races (Mid-Ohio and Topeka) that the bike stayed together... Mid-Ohio was his first Superbike National win... Won the 750 SuperSport race at Mid-Ohio.

1988 Finished third in every Superbike race he finished and third in the series... Rode a Supertrapp-sponsored Honda.

1987 Rode a Honda sponsored by Freddie Spencer and Supertrapp in his first season in Superbike... Best finish was third at Sears Point, the final event of the season... Finished in the top-10 in seven of the nine races.

1986 Rode a Honda RS500 GP bike sponsored Freddie Spencer and Supertrapp.

1985 Rode a Honda 500cc GP bike in Formula One.

1984 Raced in a few Formula One events to earn points in the Grand National Series, which at the time paid points in dirt track and road racing.

Career Highlights

2006 Duhamel raced in AMA Superbike, earning seven podium finishes... Contested the AMA Formula Xtreme Daytona 200 round, finishing fifth... Raced with American Honda team.

2005 Duhamel won the AMA Formula Xtreme Championship title with four wins - including the Daytona 200 round - and second-place finishes at the remaining five series races... Won the Formula Xtreme title in a down-to-the-wire battle with Jake Zemke at the Road Atlanta season finale... Raced AMA Superbike, earning podium finishes at Mid-Ohio race #2 and Road Atlanta race #1... Raced with American Honda team

2004 Duhamel won the AMA Formula Xtreme Championship, winning eight of 11 races and taking second-place at the three remaining events... He won six rounds of the AMA Superbike Championship, with nine additional series podium finishes... Raced with American Honda team.

2003 Duhamel earned his fourth Daytona Intl Speedway AMA Superbike victory and made seven additional podium appearances in the series... He also raced in AMA Supersport, taking a win at Brainerd Intl Raceway and two additional series podium finishes... Raced with American Honda.

2002 All-time AMA U.S. Superbike win list leader Duhamel came on strong at the Road America doubleheader, sweeping the AMA U.S. Superbike races there... He had five additional Superbike podium finishes... Finished the season ranked third in AMA U.S. Superbike points... He entered the Daytona round of the AMA U.S. Supersport series, earning a third-place finish... Raced with American Honda.

2001 Duhamel took four AMA U.S. Superbike podium finishes... He earned AMA U.S. SuperSport victories at Daytona Intl Speedway, Mid-Ohio and Brainerd Intl Raceway... Raced with factory Honda team.

2000 Duhamel won the Brainerd Int'l Raceway round of the AMA Chevy Trucks U.S. Superbike Championship... He also won the Road America round of the Pro Honda Oils 600 SuperSport series... Raced for American Honda.

1999 Duhamel returned to racing with lingering injuries incurred the season before, but stunned the crowd at the Daytona 200 by winning both the AMA Superbike and Pro Honda Oils 600 Supersport races... Also took second-place at the Sears Point Pro Honda Oils 600 SuperSport race... His season was cut short by a crash at Road Atlanta... Rode for American Honda.

1998 Duhamel's MBNA Superbike season was cut short by a season-ending accident, incurred while qualifying for the New Hampshire Int'l Speedway race... Before the injury Duhamel was in contention for the title, having won four MBNA Superbike races, and taking second-place at another two... Duhamel also contested the Pro Honda Oils 600 SuperSport series, where he won the Sears Point race, and took an additional four podium finishes... Raced with American Honda.

1997 Won his fifth Pro Honda Oils 600cc SuperSport title with five wins and two podium finishes... Was the runner up for the MBNA Superbike Series title with four wins... Nominated for AMA Speedvision Athlete of the Year... Rode for Smokin' Joe's Honda.

1996 Won four Superbike races (Daytona, Pomona, Homestead and Loudon) and finished on the Superbike podium six times in 10 races... Finished on the 600cc

SuperSport podium in all but three events and won his fourth 600cc SuperSport title... Is the winningest rider ever in 600cc SuperSport with 28 career wins... Moved into a tie with Doug Polen for fifth in the AMA Superbike win list with 13 career victories... Rode for Honda.

1995 Named AMA Pro Athlete of the Year... Duhamel became the first Canadian to win the AMA Superbike title... In HP4 600 SuperSport Duhamel was equally dominant winning nine of the 11 rounds... Returned to Honda... Set a record of six consecutive AMA Superbike victories with his win at Sears Point, breaking a record of five consecutive wins set by Wayne Rainey in 1986... Broke record held by Doug Polen of consecutive 600cc SuperSport wins with his eighth-straight victory set at Firebird Raceway... Recorded a third-place finish at the U.S. round of World Superbike.

1994 Was picked by Harley-Davidson as the rider to debut its new VR1000 Superbike... Led parts of the Mid-Ohio and Brainerd Superbike finals on the VR1000, the first and only time the Harley led an AMA Superbike race.

1993 Dominated 600cc SuperSport on a Kawasaki, winning seven races, and winning his second title in the class... Won Superbike final at Sears Point, beating Doug Polen by inches at the finish line.

1992 Won the FIM World Endurance Team Championship with Team Kawasaki France... Competed in the 500cc Grand Prix World Championship for Team Yamaha France, finishing 12th in the series.

1991 Won the Daytona 200 as a replacement rider for the injured Randy Renfrow on the Camel Honda team... Won seven 600cc SuperSport races en route to winning the championship, his first AMA title.

1990 Won first AMA Superbike race riding for Yoshimura Suzuki at Topeka, Kansas... Earned Superbike Rookie of the Year Award.

1989 Raced for Honda in FIM Endurance Cup and Team Suzuki in Canadian Superbike races... Rode a limited AMA 250 Grand Prix schedule, best finish was fourth at Road Atlanta... Scored his very first AMA National points with a 12th in the 600cc SuperSport final at Daytona on March 12 riding a Suzuki, later that same day he rode to eighth in the 250GP final on an Aprilia.

1988 Turned road race pro in Canada.

Entered select AMA Supersport races, best result a sixth-place at Barber Motorsports Park... Raced with American Suzuki team.

2003 Yates took AMA Superbike wins at Road Atlanta, Brainerd Intl Raceway and Barber Motorsports Park, and earned seven additional podium finishes... Finished the season as runner-up for the title... Raced with American Suzuki team.

2002 Yates earned seven AMA Superbike podium finishes... He also competed in the AMA Supersport Championship, winning that title with five victories, three additional podium finishes, and four pole positions... Raced with Blimpie Yoshimura Suzuki team.

2001 Yates took four AMA Superbike podium finishes... His best result was a second-place at race two of the Road Atlanta doubleheader... He was injured in a crash while leading the AMA U.S. Superbike race at Laguna Seca, suffering a broken wrist/arm and missing the next three races... Yates won the Road America round of the AMA SuperSport Championship, and earned four additional series podium finishes... Raced with Yoshimura Suzuki team.

2000 Yates achieved his highest AMA Superbike ranking to date by sweeping both rounds of the AMA Superbike doubleheader at Mid-Ohio and making five additional podium appearances... Raced with Yoshimura Suzuki.

1999 Yates just missed the AMA Superbike podium with fourth-place finishes at Sears Point, Laguna Seca and Road Atlanta... He took the AMA 600 SuperSport win at Pikes Peak, and had three additional podium finishes in that series... Rode with Muzzy Kawasaki.

1998 Yates had a remarkable comeback after missing three mid-season races due to injury... Took AMA 600 SuperSport wins at Brainerd and Las Vegas, and placed second at Phoenix, Elkhart Lake and Loudon...Raced AMA Superbike, won at Loudon and Mid-Ohio, and one additional podium at Phoenix. Finished outside the top-10 just once... Rode for Yoshimura Suzuki.

1997 Took AMA 600 SuperSport wins at Laguna Seca and Las Vegas, and had six podium finishes...Raced AMA Superbike, had four podium finishes and finished outside the top-10 just once.... Rode for Yoshimura Suzuki.

1996 Took his first career AMA Superbike win at Sears Point, and earned the Superbike pole... Won the 750 SuperSport title in his first year as a factory rider... Finished on the podium at every 750cc SuperSport except Pomona, Calif., where he rode with a broken collarbone... Won five 750cc SuperSport finals including his very first race with Yoshimura Suzuki at Daytona.

1995 Entered the first Superbike races of his career on his SuperSport-spec bike, his best finish was eighth at Sears Point... Entered select SuperTwins race and won at St. Louis... Won three SuperTwins poles... Had four podium finishes in 750 SuperSport... Rode for Team Suzuki Sport... Co-rider with SuperTeams Champion Cycle Motion Racing... Was signed by Yoshimura Suzuki to contest the AMA Superbike Series in s

1994 Earned his first AMA National win at Loudon in the SuperTwins final... Rode to two podium finishes in 750 SuperSport, including a second at Sears Point.

1993 Earned his first AMA National points with a 21st-place finish in the 750 SuperSport final at Daytona... Three top-10 finishes in 750 SuperSport with a season best sixth at Mid-Ohio... Two top-10 finishes in 600 SuperSport with a sixth at Loudon his top placing.

Blake Young

Birth date: September 20, 1987

Birthplace: Madison, Wisconsin

Residence: Waunakee, Wisconsin

Height: 5'9"

Weight: 135 lbs.

Turned Pro: 2003

Year-end AMA Ranking

2006 7th (SS), 9th (FX)

2005 11th (SS), 15th (STK)

2004 18th (SS), 16th (FX)

2003 44th (SS)

Career Highlights

2006 Young raced in AMA Supersport, earning nine, top-10 finishes... Raced in AMA Formula Xtreme, earning seven, top-10 finishes... Raced with American Suzuki.

2005 Young raced in AMA Supersport, earning three, top-10 finishes... Raced in AMA Superstock, his best result a 12th-place finish at California Speedway... 2005 AMA Sports Horizon Award recipient... Raced with American Suzuki.

Jake Zemke

Birth date: December 15, 1975

Birthplace: San Francisco, California

Residence: Paso Robles, California

Height: 5'6"

Weight: 150 lbs.

Turned Pro: 1992

Year-end AMA Ranking

2006 7th (SB), 33rd (FX)

2005 11th (SB), 2nd (FX)

2004 3rd (SB), 2nd (FX)

2003 5th (Supersport), 3rd (FX)

2002 8th (Supersport), 2nd (FX)

2001 6th (600SS), 47th (750SS), 4th (FX)

2000 8th (600SS), 2nd (FX)

1999 52nd (SB), 15th (600SS), 2nd (750SS)

1998 9th (750SS)

1997 3rd (ST), 66th (FX)

Career Highlights

2006 Zemke raced in AMA Superbike, earning a win at Miller Motorsports Park and taking five additional podium finishes in the series... He won the Daytona 200 AMA Formula Xtreme round... Raced with American Honda team.

2005 Zemke raced in AMA Superbike, earning a podium finish in Road America race #2... A consistent frontrunner in the AMA Formula Xtreme series, he earned five wins with three additional podium finishes, and was runner-up for the series title... Raced with American Honda.

AMA Superbike Championship Rules Brief

The following section contains excerpts from the AMA Superbike Championship Official Rule Book. For complete race rules, consult Official Rulebook.

Introduction

This book contains rules and technical requirements governing all events that make up the AMA Superbike Championship. The series consists of Superbike, our premier class, and three support classes: Supersport, Superstock and Formula Xtreme™.

- The Superbike class represents the top level of road race competition in America, with exceptionally talented racers vying for victory on heavily modified production motorcycles.
- The Supersport and Superstock classes are for lightly modified production motorcycles, displacing 600cc and 1000cc, respectively.
- Formula Xtreme is for modified 600 motorcycles and twins up to 1350cc.

Superbike Equipment Standards

This section contains equipment standards for the AMA Superbike class. Motorcycle components may be modified, removed or replaced with the exceptions or restrictions listed in this section. In addition, every motorcycle entered must meet the requirements listed in General Equipment Standards.

Homologation

- a. Only homologated motorcycles may be used in Superbike competition.
- b. Superbike motorcycles must be street certified in the US and available through US retail dealers. Minimum import requirement per model is as follows:
 1. Manufacturers with 99 or fewer US retail dealers - 150 units
 2. Manufacturers with 100 - 199 US retail dealers - 300 units
 3. Manufacturers with more than 200 US retail dealers - 400 units
- c. See Homologation of Motorcycles under General Equipment Standards.

Engines

- a. Engine Displacements 901cc - 1000cc 4-stroke with two or more cylinders
- b. Engine type, configuration, stroke and any modifications of engine components to alter the stock OEM firing order of the cylinders are not permitted.

Weight

Superbike minimum weight requirement:
370 pounds (without fuel) 375 pounds (with fuel)

Supersport / Superstock Equipment Standards

This section contains equipment standards for the AMA Supersport and Superstock classes. The motorcycles are based on production four-stroke street motorcycles and are the closest motorcycles to showroom stock in the AMA Superbike Championship. In addition, every motorcycle entered must meet the requirements listed in General Equipment Standards.

Homologation

- a. Only homologated motorcycles may be used in Supersport and Superstock competition.
- b. Supersport and Superstock motorcycles must be street certified in the US and available through US retail dealers. Minimum import requirement per model is 400 units.
- c. Motorcycle models from other countries (Canada, England, etc.) may only be utilized if they meet all homologated US model specifications.
- d. See Homologation of Motorcycles under General Equipment Standards.

Engines

- a. Engine Displacements
Supersport - 0-600cc 4-stroke multi cylinders
Superstock - 745cc - 1000cc 4-stroke multi cylinders

Weight

Given the modification restrictions for Supersport and Superstock classes, there are no minimum weight requirements.

Formula Xtreme™ Equipment Standards

This section contains equipment standards for the AMA Formula Xtreme™ class. The motorcycles are based on modified production four-stroke street motorcycles with an emphasis on equipment diversity and competitive balance. If it becomes apparent that one type or model of motorcycle gains an unfair performance advantage, AMA Pro Racing reserves at any time the right to implement restrictions including but not limited to additional weight to that type or model of motorcycle to restore competitive balance. This class offers a diversity of engine configurations and displacement limits. In addition, every motorcycle entered must meet the requirements listed in General Equipment Standards.

Homologation

- a. Only homologated motorcycles may be used in Formula Xtreme™ competition.
- b. Formula Xtreme™ competition is restricted to motorcycles (engines and frames) produced for US street use and available in the US through retail dealers.
- c. See Homologation of Motorcycles under General Equipment Standards.

Engine Configuration and Displacement Limits

Motorcycles in this class must meet the following engine displacements and specifications:

- 550cc-600cc 4-stroke liquid-cooled 4-valve four cylinders
- 650cc-675cc 4-stroke liquid-cooled 4-valve three cylinders
- 650cc-850cc 4-stroke liquid-cooled 4-valve twin cylinders
- 990cc-1100cc 4-stroke air/oil-cooled 2-valve desmo twin cylinders
- 990cc-1200cc 4-stroke air/oil-cooled 4-valve twin cylinders
- 900cc-1350cc 4-stroke air/oil-cooled 2-valve twin cylinders

Weight

Minimum weight - 350 pounds (without fuel), 355 pounds (with fuel).

Competition Licenses

All riders participating in any on-track practice, qualifying or racing must have a valid AMA Pro Racing license of the appropriate classification. Licenses are not issued at the racetrack. It is recommended that processing of the license be completed through the AMA Pro Racing office 30 days before the first meet you wish to participate in. Additional licensing information and applications are available from the AMA Pro Racing office.

5.2 License Classifications

There are two classes of rider licenses for Road Racing events run by AMA Pro Racing - Pro Expert and Superbike. Pro Expert licenses are available to riders moving into the pro ranks, while Superbike licenses are issued to riders at the top level of the sport. For specific eligibility requirements, contact AMA Pro Racing and request an AMA Pro License Application.

Road Race Classes License Requirements

- Superbike Superbike only
- Supersport Superbike or Pro Expert
- Superstock Superbike or Pro Expert
- Formula Xtreme® Superbike or Pro Expert

The Racing Program

Each round of the AMA Superbike Championship consists of a number of races usually conducted over a three-day weekend. Riders in each class are given practice time on the track leading up to one or more timed qualifying sessions, which set the field for final races. Finals in the Superbike class normally run 100 kilometers, while other classes typically have 60-kilometer finals. Several of the rounds of the series are doubleheaders in the Superbike class.

6.2 Participant Regulation

Every club, association, company, promoter, rider and all other persons participating or in any way connected with an AMA Pro Racing race meet, will be deemed participants and therefore bound by the AMA Pro Racing Rulebook.

6.3 Bulletins and Supplementary Regulations

Competition Bulletins or Supplementary Regulations established by AMA Pro Racing for the purpose of implementing, interpreting and enforcing these competition rules will be deemed to be part of the rules.

6.4 Substance Abuse Policy

In the interest of maintaining the integrity of motorcycle sports, AMA Pro Racing has established a Substance Abuse Policy and from time to time conducts tests for drugs and alcohol. Compliance with the AMA Pro Racing Substance Abuse Policy is an essential precondition to the issuance of Professional Competition licenses. Any violation of the policy, or refusal to submit to testing as requested by AMA Pro Racing, will result in the immediate cancellation of licenses and loss of all rights to compete in AMA Professional or Amateur sanctioned meets. See Substance Abuse Policy under Offenses, Penalties, Protests and Appeals.

6.5 Intravenous Rehydration

- a. At no time during a meet will a rider receive any type of intravenous rehydration unless such rehydration is deemed medically necessary by appropriate medical personnel as a result of an emergency medical situation (e.g. heat stroke) encountered by a rider during, or as a result of competing in, an event or the practices, heat races, or motos which are part of an event.
- b. Once a rider receives such rehydration during a meet, that rider will not be permitted to compete in any further events including, but not limited to, any further practice sessions, heat races, qualifying sessions or final events comprising any event in the meet unless and until the rider is released by the medical personnel who treats the rider for the specific emergency medical situation at issue.

6.6 Track Rentals - Unofficial Practice

At facilities where road races are to be held, exclusive track rentals by participants, including manufacturers, teams or individuals, within ten days preceding the first day of official practice, are not allowed. Regional race meets, promoter/racetrack organized open practice and open schools are not restricted.

6.7 Inclement Weather / Unacceptable Track Conditions

- a. Events may be conducted regardless of weather conditions.
- b. In the event of rain or other conditions, it may be necessary for the Race Manager to adjust the order of the event schedule, the length of races, practices and qualifying sessions, or to stop the program completely. Should this occur, the Race Manager will make every effort to resume the schedule in a timely fashion if conditions improve sufficiently. See Wet Start Events (6.18).
- c. If a meet is stopped due to weather or other conditions, riders will be paid for any purse-carrying events which have been completed.

6.8 Motorcycle Usage

Riders must start and complete any race on the same motorcycle (same main frame) except in Superbike where a back-up motorcycle may be used under certain red flag conditions. See Procedures for Red Flag Stops and Restarts (6.19).

6.11 Technical Inspections

- a. Technical inspections of motorcycles, equipment and riding apparel may be held prior to and after a race meet or at other times as determined by the Race Manager or Chief Technical Inspector.
- b. Regardless of a motorcycle, equipment or apparel passing prior inspections, compliance with the rules must be made at the post-race inspection.
- c. Motorcycles must have passed pre-race tech inspection before they will be allowed on the race track. Motorcycles must be class legal and must meet all equipment requirements.
- d. More than one motorcycle per class may be presented and passed through initial tech inspection. If more than one motorcycle is to be presented for initial tech inspection:
 1. They will be numbered with a "1" or "2" to identify each motorcycle.
 2. The numbers will be located on the triple clamp and easily visible.
- e. Race Manager may require post-race tear downs to begin at any time following the completion of an event.
- f. During post-race technical inspections or tear downs, only two working mechanics for each impounded motorcycle are permitted in the inspection/impound area. Only AMA officials or AMA-designated personnel may inspect impounded motorcycles or equipment.

On Track Regulations

- a. No rider may, at any time, ride in such a manner as to endanger life or limb of other riders, officials or the public.
- b. Riders must not intentionally stop on course during practice, qualifying, or any race, including cool-down laps.
- c. No one, except riders officially entered, or event officials may ride or practice on any race course during the meet. Unofficial practice during the race meet is prohibited.
- d. Unless directed to do so by the Race Manager or his designee, no one at any time will be permitted to ride a motorcycle in the wrong direction on the track or pit road.
- e. A rider may make repairs during a race, without assistance, in a suitable area off the race course.
- f. Any form of outside assistance to riders on the course is forbidden except when the assistance is given by corner marshals or officials placed by the Race Manager for the purpose of control with the following exceptions:
 - 1. Assistance by crewmembers is allowed during practice and qualifying.
 - 2. Assistance by crewmembers is allowed in the starting grid area for the parade and warm-up laps. Immediately following the start of a race, when the grid is clear, assistance by crewmembers is allowed only to re-start stalled motorcycles. See Procedures for Starts.
- g. A rider leaving the course may only continue the race by properly re-entering the course from the closest point to where that rider left the course without gaining an advantage.
 - 1. The rider must re-enter the course under the direction of the turn marshals if they are present in the area where the run-off occurred.
 - 2. It will be the duty of the meet Race Manager or his designee to make the determination as to whether a rider gained any advantage by leaving the race course and re-entering. A rider may be determined to have gained an advantage without gaining race position.
- h. A rider whose motorcycle is disabled before reaching the finish line may, by that rider's own unaided muscular energy, push or carry the motorcycle in the proper direction of the course to complete the race unless the rider is determined to be a hazard by the Race Manager.
- i. Testing of any equipment deemed acceptable by AMA Pro Racing may be conducted in practice sessions, at the direction of the Race Manager.
- j. Once a rider is issued a scoring transponder it must be correctly attached to their motorcycle at all times when on track. Teams owning hard-wired scoring transponders must have the transponder mounted correctly and connected to power at all times when on track.

6.13 Pit Road Speed

Pit road maximum speed is 50 mph at all times.

Flags / Lights

a. Operational Flag / Lights

1. Green Flag/Light: Indicates the start of a race or clear track conditions.
2. Checkered Flag: Indicates the end of a race or practice session. Proceed around the course to the designated track exit.
3. Red Flag: Indicates the race has been stopped. Reduce speed and proceed safely to the pit road.
4. Red Light: May be used for stopping a race as described under Red Flag.
5. Black Flag with 12" Orange Center: Indicates a stop and go penalty. Report to the Pit Steward on the next lap. Number board displayed with the flag indicates rider being signaled.
6. Black Flag: Indicates a problem with your motorcycle or a disqualification. Number board displayed with the flag indicates the rider being signaled. Carefully reduce speed and stop at the first suitable location off the course.

b. Warning Flags / Lights

1. Yellow Flag with Red Stripes: Indicates debris, fluid or a potentially hazardous situation on or near the track. Passing is allowed. Exercise caution.
2. Lime Green with Black Stripes: Indicates the possibility of oil on the track. Passing is allowed. Exercise caution.
3. Yellow Flag / Light

a. Stationary Yellow Flag: Indicates a potentially hazardous situation on or near the track. Passing is allowed. Exercise caution.

b. Waving Yellow Flag/Yellow Light: Indicates serious hazards on or near the track. Proceed with caution. Passing is not allowed from the flag stations displaying the waving yellow flag until the rider is beyond the incident. Violations will be determined from corner worker reports or other evidence deemed appropriate by the Race Manager.

4. White Flag with Red Cross: Indicates that ambulances, safety vehicles or emergency personnel are on the course. Exercise caution.

c. Courtesy Flags

1. White Flag: Indicates the final lap of a race.
2. White and Green Flags Crossed: Indicates 1/2 total race distance.
3. Blue Flag: Indicates you are about to be overtaken by faster riders. Hold your line and do not impede their progress. Riders disregarding this flag may be black-flagged at the discretion of Race Manager.

Procedures for Qualifying

- a. Heat races or timed qualifying may be used for qualifying.
- b. For events requiring timed qualifying:
 1. Schedule of timed qualifying sessions and number of qualifying positions will be listed in the Supplementary Regulations or the race schedule.
 2. Procedure for splitting all classes into two groups for qualifying sessions:
 - a. Best time for each rider from the first day of official practice sessions will determine which group riders are placed in.
 - b. Group 1 will be the slower half, group 2 the faster half. If groups cannot be divided equally, the extra rider will be placed in group 1.
 - c. A list of riders in each group will be posted following the first day of practice. It is the responsibility of each rider to qualify with the correct group. Riders that qualify in the wrong group will be placed (if qualified) at the back of the grid for the race.
 - d. If it is determined by AMA Pro Racing that track conditions have changed significantly between the two qualifying sessions, group 2 riders will be placed on the grid in front of group 1 riders. Each group will be sorted by times from their respective sessions. A point for earning pole position will be awarded.
 3. The timing point may not be at the finish line at all racetracks.
 4. Fastest lap time of each rider will be posted after every timed qualifying session.
 5. Qualifying results will determine grid positions.
 6. Ties in qualifying times will be broken by the rider who achieved the time first.
- c. For timed qualifying events, a rider's best lap time must be within 110% (108% in Superbike) of the fastest qualifying rider's best lap time in order to pre-qualify for one of the available grid positions in the final.
 1. At the discretion of the Race Manager, the qualifying percentage regulation may be waived due to special circumstances such as track delays resulting in an extreme reduction in qualifying time, significant changes in weather conditions, etc.
 2. Individual rider circumstances will not be considered as sufficient reason to waive this requirement.
 3. Should a rider qualified for a final event not be able to take part in that event, the race grids will not be altered to fill their position or to make room for other riders.
- d. Riders currently, or at the end of the previous season, listed in the top ten in points in one or more classes, will be permitted one provisional start per season in each of those classes. Such riders will be placed on the back row of the grid should they not qualify through the normal procedure. Riders eligible for provisional starts must notify the race manager in writing of their intent to use a provisional start within one hour of the conclusion of qualifying for each class they are requesting the provisional for.

- e. The maximum number of qualified riders allowed to participate in final events will be published in the Supplemental Regulations for each event. A maximum of 36 riders will be placed on the grid at all Superbike final events except Daytona. Riders utilizing provisional starts per the rulebook procedures may be added to the back of the grid at the discretion of the Race Manager.
- f. In programs that require heat races, a rider must attempt to start a heat in order to qualify for the main event.

Procedures for Gridding

- a. The official starting line for each starting row will be plainly marked with approximately 30 feet between each row to form a grid.
 - 1. The starting positions will be staggered backward from the pole side resulting in slightly diagonal starting rows. Approximate stagger from position to position will be one meter.
 - 2. Each starting position will be marked by a grid box, approximately 12 inches square, representing the area where the front tire contact patch must be located to be properly staged.
 - 3. Riders who are not properly staged at the green light will be assessed a penalty.
- b. Grid sheets will be posted indicating row and rider. It is the responsibility of the rider to notify race officials if there is an error in the grid sheet within 30 minutes of posting.
- c. Electric power must be disconnected from tire warmers on the pre-grid or grid. Tire-warmer use will be allowed only next to the pit wall in the pit road service areas. Any generators must remain in the cold pit, with only extension cords allowed over the wall.

Procedures for Starts

- a. An electronic countdown display of numbers will precede the start of each scheduled race. The electronic display and starting lights or flags will be displayed in front of the first row and in view of each rider.
- b. Staging announcements will be made prior to the start procedure for each race. All classes will be given a sighting lap and a warm-up lap prior to the start of races. For live TV races, a schedule with the timing of the start procedure will be posted. All riders should report to the designated staging area prior to the final call.
- c. Motorcycles are prohibited from entering the hot pit for staging until 80% of the previous race is complete.
- d. Sighting lap procedure:
 - 1. 2-minute board and horn

-
2. 1-minute board and horn
 3. 30-second board and horn
 4. Pit lane open for sighting lap. Pit lane exit closed after 1 minute.
 5. Riders not taking part in the sighting lap may push their bikes onto the grid at the direction of an official or, depending on the track configuration, may have to start the warm-up lap from pit lane.
 6. Tire warmers must be unplugged at this time, including spare motorcycles.
 7. Refueling will be allowed after the sighting lap and before the warm-up lap only in designated areas.
- e. Warm-up lap procedure:
1. It is expressly prohibited for any rider to take a warm-up lap for any race in which that rider is not an entrant.
 2. 3-minute board and horn
 3. 2-minute board and horn. All but two team personnel and 1 umbrella person must leave the grid. All adjustments and/or repairs must be completed at this time. Teams that wish to continue making adjustments or repairs must remove the bike from the grid.
 4. 1-minute board and horn. Tire warmers must be removed, including all bikes on pit lane. Team personnel and umbrella holders must start to clear the grid. Bikes requiring assistance with starting should be started at this time.
 5. 30-second board and horn. Bikes must be started and all personnel must immediately clear the grid.
 6. Warm-up lap starts from row one on a row-by-row basis. Riders on each row must be prepared to start when signaled by officials standing at the side of the grid. Team personnel are not permitted back onto the grid unless directed to do so by an official.
 7. Once the #5 has been changed to the #4, no rider may begin a warm-up lap.
 8. Riders returning to the grid must position their front wheel inside the box designating their grid position to be properly staged. The #3 will be shown next to the starting light.
 9. Riders not in their grid position when the #2 is shown next to the starting light must start from the back of the grid. Riders still on pit lane will be staged at pit out until all riders on the starting grid have passed the pit out staging point following the start of the race.
 10. It is the responsibility of the rider to report to the correct grid position. Should the countdown reach #1, and a rider is found in the wrong grid position, that rider will be assessed a penalty.
 11. Refueling after the start of the warm-up lap is not permitted.
- f. Race Start Procedure:
1. During the start of a race should circumstances dictate an abort of

the countdown, the Starter will stop the displayed countdown and may go back to the previous number displayed. The countdown will resume once the problem is solved.

- a. Should the delay be short, the countdown will be resumed at the #2 mark.
- b. Should the delay prove lengthy, the countdown will be restarted at the #5 and the riders permitted an additional warm-up lap.
 2. Once the #2 is displayed, there will be, at minimum, a 5 second delay before the #1 is displayed.
 3. Following the #1 display there will then be a 2-5 second delay before the green light will be turned on signaling the start of the race.
 4. Should an engine stall once the #1 has been displayed, the rider should wave to get the attention of the Starter or a Grid Marshall. The rider will be given time to remove the motorcycle from the grid, and will then be permitted to join the race once the field has left the grid until the time the race leader completes the first lap.
 5. Should a rider's front wheel axle cross the designated front grid mark before the green light signal, the rider will have jumped the start and a penalty will be assessed. This allows a rider virtually no movement before the start is signaled.
 6. Starts may be divided and started in separate groups or "waves." Time interval between waves will be determined by conditions at each racetrack.
 - a. The green light will be activated separately for each wave.
 - b. Once the first group has started, if it is necessary to abort the start of the remaining groups, the red flag will be displayed immediately and there will be a restart in accordance with the Procedures for Red Flag Stops and Restarts.
 7. After the start of a race all back-up motorcycles will be moved behind the hot pit wall without delay. Superbikes may remain until finish line to begin the third lap).

6.18 Wet Start Events

- a. The Race Manager will determine whether a pending race will be designated as a wet start event if conditions are threatening or if the track is wet.
- b. Should rain begin during a race not originally designated as a wet start event, the Race Manager may stop the race, if track conditions warrant, and designate the restart as a wet start. Any race begun or restarted as a wet start event will not be stopped solely because of drying track conditions.
- c. Should a race be designated as wet for any class that did not have any wet practice sessions, a brief wet practice may be organized prior to the race. The sighting lap prior to the warm-up lap may be eliminated depending on the available time.

6.19 Procedures for Red Flag Stops and Restarts

- a. If a race already in progress must be stopped, a red flag will be displayed at the finish line and at all corner working stations. Riders should proceed around the track at reduced speed and come to a stop on pit road.
- b. Any race start or restart will be considered an official part of the event even if the start or restart does not result in a lap being completed by the leader. Therefore, any infractions will be deemed valid and ruled upon accordingly.
- c. During a red flag period of a race, repairs, adjustments, or refueling may be made to competing motorcycles only in the designated pit or work area. Any motorcycle that enters the paddock or garage area will be prohibited from returning to the racetrack. Crash trucks retrieving disabled motorcycles from the track may pass through the paddock or garage area to deliver such motorcycles to the designated pit area or a controlled drop-off point. Refer to Supplemental Regulations for each race meet for the location of a controlled drop-off point and special procedures for tracks with hot pit garages.
- d. When a race is stopped with two laps or less (less than one lap in heat races) completed by the leader, it will be restarted at the beginning of lap one using original starting positions. Riders unable to restart will be listed in the results relative to the order in which they dropped out.
- e. Except in heat races, should a race be stopped with more than two laps, but less than 50% of the total laps completed by the leader, the field will be re-gridded for the restart.
 1. In order to determine re-grid positions for a restart, riders who ride directly onto the pit road when a red flag is displayed will be credited with completing the lap they were on.
 2. Riders' re-grid positions will be determined by their race positions (not track positions) in the lap preceding the red-flagged lap.
- f. Riders determined by the Race Manager to be responsible for stopping a race will be placed on the restart or the finishing order in last place of the lap in which they were scored, in accordance with the restart procedure and relative to their involvement (first rider involved last, next rider involved next to last, etc.).
- g. Should a race be stopped in which 50% (one lap in heat races) or more of the total laps have been completed by the leader, the race may be considered complete at the discretion of the Race Manager. Should the race be restarted, the re-grid will be determined per the procedure utilized for races stopped with more than two laps completed by the leader.
- h. Should a race be stopped in which 80% or more of the total laps have been completed by the leader, the race will be considered complete and there will be no restart.
- i. Riders who are not present at the starting grid for the original start of a race are barred from any subsequent restarts.
 1. Riders who are present at the grid but are unable to start due to a stalled motorcycle may join the race from the pit road or starting grid until the time the race leader completes the first lap.

2. Riders who are unable to join the race by this procedure are barred from any subsequent restarts occurring with more than two laps completed by the leader.

6.20 Back-up Motorcycles

- a. If more than one motorcycle is to be presented for initial tech inspection:
 1. They will be numbered with a “1” or “2” to identify each motorcycle.
 2. The numbers will be located on the triple clamp and easily visible.
- b. In Superbike only, when a race is restarted following a red flag, a rider who was present at the starting grid, but was unable to start or dropped out after the start, is permitted to restart on a back-up motorcycle until two laps have been officially completed, (leader has crossed the finish line to begin the third lap), using the following procedure:
 1. Rider must obtain permission from the Chief Steward or Race Manager.
 2. All back-up motorcycles must be staged on pit lane or in a designated area and identified to grid officials.
 3. Rider will be gridded on the last row of the restart grid in a position determined by scoring.
 4. Riders who are present at the grid but are unable to start may join the race from the pit road/grid until the time the race leader completes the first lap.

6.21 Scheduled Pit Stops During a Race

- a. Pace Car procedures will be detailed at riders meetings as each facility is unique in layout and configuration.
- b. At races utilizing a Pace Car, a Blue Flag with Yellow X will indicate the Pace Car is being dispatched and all riders are to hold position in regard to passing other competitors, but are instructed to close up the distance on riders ahead of them.
- c. Refueling is permitted only on pit road in the rider's pit area, utilizing the following equipment:
 1. Only dump cans are permitted to be used for refueling stops.
 2. Only funnels made from non-sparking material are allowed.
 3. Fuel must flow from container to fuel tank by force of gravity only.
 4. If an additional vent coupling is installed and utilized in the fuel tank, that vent must be connected to the dump can, thereby venting air from the tank back to the can during refueling.
- d. When refueling during a race, a crewmember must be standing by with a fire extinguisher ready for use.
 1. “Standing by” means close enough to be immediately involved if needed.
 2. “Ready for use” means with the pin pulled and the nozzle aimed at the motorcycle.

3. Each rider's crew or team must be equipped with its own fire extinguisher.
 4. Fire extinguisher must be fully-charged and have the following minimum specifications: 5 lb. - BC Rated.
 5. Compliance with this rule will be determined by officials assigned to pit road and cannot be protested.
- e. The number of crewmembers permitted on the track side of the pit wall for servicing, refueling and tire changes during a race pit stop is limited to five per motorcycle. All crewmembers are required to wear long pants.
1. A sixth crewmember may be on the track side of the pit wall solely to perform the fire extinguisher duty as previously described during the refueling process. This crewmember is not permitted to assist or work on the motorcycle while over the wall.
 2. Any other crewmembers on the track side of the pit wall, above the maximum of six involved with the motorcycle, are allowed to perform signaling/timing duties only in the designated signal area.
- f. Pneumatic, hydraulic or electrically-operated motorcycle stands or lifts are not permitted for use during pit stops. Only hand or foot-operated stands are allowed.

6.22 Race Finishes

- a. Races are officially ended for all contestants at the completion of the lap on which the checkered flag is displayed to the winner. Riders will be credited with all laps they complete during a race unless a penalty has been assessed.
- b. Should the checkered flag be displayed later than the official distance, the finishing order will be decided on the basis of the official distance. Under any other circumstances, the winner is the leader at the time the checkered flag is displayed.
- c. Should a rider be given the checkered flag ahead of the actual winner, or with the winners, the rider will be scored as having completed the race in the race position in which the rider was running at that time.
- d. Should a race not be restarted after a red flag, riders' final positions will be determined by their race positions (not track positions) in the lap preceding the red-flagged lap.
- e. A video camera may be utilized at the finish line to aid the scorekeepers in determining the finishing order of a close race. Should video footage from an AMA Pro Racing designated camera be unavailable or inconclusive for any reason, the scoring of the finish will be based solely on the scorekeepers' decision.
- f. Any riders who do not complete the checkered flag lap will be scored in order of finish and laps completed. Riders dropping out of a race on the same lap will be scored in the order that they last crossed the finish line.

6.23 Official Race Results

- a. No official announcement of race results will be given until all scoring materials are examined and approved by the Chief Scorer. Provisional results will then be posted and will become official if a recheck is not requested by a rider within 30 minutes after the posting of those results.
- b. If any rechecks are filed within the time limit, a new posting time limit of 30 minutes will be required if changes are made to the previously posted results.
- c. The issuing of official results does not exempt riders who competed in the event from penalties for rules violations determined by AMA Pro Racing investigations following the protest period.
- d. Riders are entitled to examine their score sheets with the Chief Scorer and to see the recording of their laps on the score sheets.

Championship Points

- a. When the results of Championship races are declared official, points will be awarded to the top 30 finishers according to the following schedule:

1st 36	11th 20	21st 10
2nd 32	12th 19	22nd 9
3rd 29	13th 18	23rd 8
4th 27	14th 17	24th 7
5th 26	15th 16	25th 6
6th 25	16th 15	26th 5
7th 24	17th 14	27th 4
8th 23	18th 13	28th 3
9th 22	19th 12	29th 2
10th 21	20th 11	30th 1

- b. A bonus point will be paid to the fastest qualifier (pole position) in all classes.
- c. One bonus point will be paid to the rider leading the most laps in each final event. In the event of a tie for most laps led, the rider in the lead position last will be awarded the bonus point.
- d. In the event that there is a tie for a championship, that tie will be broken based on the number of wins in the series. If that does not break a tie, the number of second-place finishes will be compared, then thirds, fourths, etc. until the tie is broken. If a tie remains, the best finish in the last race will determine the champion. Ties will be broken as they occur.
- e. Riders must complete a minimum of 50% of the race laps run in order to receive championship points. Riders will not be credited for partial laps, only completed laps will count towards the minimum requirement.

However, riders will receive purse money for their earned grid positions if there are purse-paying positions beyond the number of riders listed in the results.

6.25 Manufacturer Points

- a. To establish a manufacturer champion for Superbike, points will be awarded to each manufacturer for its highest-placed finisher in main events.
- b. The same 30-place points payoff scale will be used.

2006 AMA Superbike Race Results
